Phenomenological Research Method - MethodSpace

As a research methodology, phenomenology is uniquely positioned to help health professions education (HPE) scholars learn from the experiences of others. Phenomenology is a form of qualitative research that focuses on the study of an individual's lived experiences within the world. Although it is a powerful approach for inquiry, the nature of this methodology is often intimidating to HPE ...

How phenomenology can help us learn from the experiences ...

Phenomenology as a discipline is distinct from but related to other key disciplines in philosophy, such as ontology, epistemology, logic, and ethics. Phenomenology has been practiced in various guises for centuries, but it came into its own in the early 20th century in the works of Husserl, Heidegger, Sartre, Merleau-Ponty and others.

Phenomenology (Stanford Encyclopedia of Philosophy)

Phenomenology is concerned with the study of experience from the perspective of the individual, 'bracketing' taken-for-granted assumptions and usual ways of perceiving. ... In doing so the ...

(PDF) An introduction to phenomenological research

Phenomenology is a design that best fits research problems that are unstructured, and for which there is little or no research or evidence in the literature. Given the explosive growth in doctoral level scholarship in the last decade, encountering problems like this is less common than one might think.

When and When Not to use Phenomenology ...

Therefore, although I do not regard this article authoritative, I offer it as a guide to spare other researchers some agony. This article includes a briefly explanation of phenomenology as research paradigm, followed by an exposition of the research design as it unfolded for a particular study (Groenewald, 2003). This includes the location of ...

Phenomenology of Practice | Taylor & Francis Group

Phenomenology (from Greek phainómenon "that which appears" and lógos "study") is the philosophical study of the structures of experience and consciousness. As a philosophical movement it was founded in the early years of the 20th century by Edmund Husserl and was later expanded upon by a circle of his followers at the universities of Göttingen and Munich in Germany.
