My growth mindset journey began 5 years ago when I started co-teaching with Jenn Maichin, a veteran growth mindset practitioner and Mindset Works Professional Learning Specialist. At the time I knew nothing about Jenn's teaching philosophy. I felt excited but nervous; if I only knew that I would grow so much as a teacher that year.

### **Mindset: It's a Learning Process - Growth Mindset Blog ...**

This is a good thing—a growth mindset rather than a deficit mindset is an important step for teachers and leaders to support all students. While “unfinished learning” places a burden on children, “unfinished teaching” shifts that responsibility to us educators—and that's exactly where it needs to be for change to occur.”

### **Unfinished learning, or unfinished teaching? A mindset shift**

In a fixed mindset, we are closed off to possibilities. In a growth mindset, we are flexible and open. In a fixed mindset, problems stop us in our tracks. In a growth mindset, they get solved. There has never been a more important time to embrace the growth mindset than in our unexpected distance learning climate. Educators set the tone.

## **The Importance of a Growth Mindset During Distance Learning**

Dweck contrasts that perspective with what she calls a “growth mindset,” or the belief that intelligence and skill can be developed through practice and dogged hard work. Dweck’s “growth mindset” research was the starting point for a panel discussion at the Engage 2018 conference hosted by Top Hat in Chicago on October 26-27. And the panelists, speaking to a gathering of several hundred faculty members from across North America, agreed on one central point: if you want to become a ...
