Science and its
advancements will
accomplish great and
horrible things but it is
not all powerful. But
almost all powerful
perhaps. "On one hand
were the triumphs of
science; on the other,
the secrets of nature

Another good one by Thomas Hager I got this after reading Mr. Hager's "Demon Under the Microscope," which is one of the best books I've read in a long time. "The Alchemy of Air" isn't in the same class but is written with the same level of completeness and mix between science and social factors.
