Web and graphic designers communicate visually. For example choosing a color scheme with a dark blue as dominant sends a very different message than if the dominant color is hot pink. Color is one way we communicate visually. It's one of the building blocks of visual grammar, which are usually defined to include: lines; shapes; color; texture ...

"Studies of visual metaphors used for rhetorical purposes generally concentrate on advertising. A familiar example is the technique of juxtaposing a picture of a sports car . . . with the image of a panther, suggesting that the product has comparable qualities of speed, power, and endurance.

## **Definition and Examples of Visual Metaphors**

In computing, a visual programming language (VPL) is any programming language that lets users create programs by manipulating program elements graphically rather than by specifying them textually. A VPL allows programming with visual expressions, spatial arrangements of text and graphic symbols, used either as elements of syntax or secondary notation. For example, many VPLs (known as dataflow ...
