Living organisms control their composition by a complex web of chemical reactions Water is the medium of life Compounds of carbon, hydrogen and oxygen are used to supply and store energy. What is special about biological molecules?

UNIT 4 Chemistry of life - IB DP Biology HL

The IB recommends 240 teaching hours for HL subjects and 150 hours for SL. Subjects at HL are studied in greater depth and breadth than at SL. At both levels, many skills are developed, especially those of critical thinking and analysis. At the end of the course, students' abilities are measured by means of external assessment.
