Status attainment in rural India (Book, 1977) [WorldCat.org]

Status attainment is affected by both achieved factors, such as educational attainment, and ascribed factors, such as family income. It is achieved by a combination of parents' status and one's own efforts and abilities. The idea behind status attainment is that one can be mobile, either upwardly or downwardly, in the form of a class system.

Education is tied to the economic prosperity of rural people and places. The educational attainment of people living in rural (nonmetropolitan) areas has increased markedly over time but has not kept pace with urban (metropolitan) gains, especially in college and postgraduate education. Median earnings rise with higher levels of educational attainment, but more so in urban than in rural areas, compounding the rural earnings disadvantage stemming from lower educational attainment.
