The *Journal of Astronomical History and Heritage* (*JAH*<sup>2</sup>) was founded in 1998, and from 2007 will be published three times yearly, in March, July and November. It features review papers, research papers, short communications, correspondence, IAU reports, and book reviews. From 2007, *JAH*<sup>2</sup> will be available in paper form, or electronically, on a CD.

Papers on all aspects of astronomical history are considered, including studies that place the evolution of astronomy in political, economic and cultural contexts. Papers on astronomical heritage may deal with historic telescopes and observatories, conservation projects (including the conversion of historic observatories into museums of astronomy), and historical or industrial archaeological investigations of astronomical sites and buildings. All papers are refereed prior to publication. There are no page charges, and *in lieu* of reprints authors are sent a pdf or Word camera-ready version of their paper.

A 'Guide for Authors' is on the *JAH*<sup>2</sup> web site ('History Astro. Journal') at

[www.jcu.edu.au/astronomy](http://www.jcu.edu.au/astronomy)

and should be followed carefully when preparing manuscripts. Papers and book reviews should be e-mailed to the Editor, Dr Wayne Orchiston ([Wayne.Orchiston@jcu.edu.au](mailto:Wayne.Orchiston@jcu.edu.au)), or posted to him at

Centre for Astronomy,  
James Cook University,  
Townsville,  
Queensland 4811,  
Australia.

Enquiries concerning subscriptions, review copies of books, advertising space, back numbers or missing issues of the *Journal* also should be directed to Dr Orchiston.

The annual subscription rates for Volume 10 (2007) are:

AU\$200:00 for institutions

AU\$88:00 for individuals

**COVER PHOTOGRAPH**

Bruce Slee (1924–) at the control desk of the Australia Telescope Compact Array in September 2002. Since this radio telescope was opened, in 1988, Slee has used it to carry out a variety of Galactic and extra-galactic research projects in conjunction with Australian and overseas colleagues. This is the fourth and final issue in the *JAH*<sup>2</sup> series celebrating Bruce Slee's sixty years in astronomy. For an overview of his research see pages 3-10 in the June 2005 issue of this journal, while two different aspects of his research portfolio are discussed on pages 97-106 in the December 2005 issue and on pages 35-56 in the June 2006 issue.
