

## INDEX: VOLUME 15, 2012

Name	Page		
Akabane, K.,	213		
Bernardi, G.	137		
Bucciarelli, B.	137		
Cameron, G.L.	125		
Clarke, D.	59		
Clendening, R.	159		
Cottam, S.,	183		
Csizmadia, Á.	179		
Csizmadia, S.	179		
Davenhall, C.	57	Discovery of the Magellanic Stream	100
Davis, J.H.	232	Highlighting the history of Japanese radio astronomy. 1: An Introduction	213
Dick, S.J.,	258	IAU Historic Radio Astronomy Working Group: Triennial Report (2009-2011)	255
Ford, J.H.R.	159	In memory of Eugene (Jenő) von Gothard: a pioneering nineteenth century Hungarian astrophysicist	105
Gargano, M.	30	Is space flat? Nineteenth century astronomy and non-Euclidean geometry	149
Hayashi, M.	213	James Ferguson remembered	57
Ishiguro, M.	213	Lomonosov, the discovery of Venus's atmosphere, and the eighteenth-century transits of Venus	3
Jankovics, I.	105	Long-publishing astronomers, or the problem of classification	47
Kaifu, N.	213	Obituary: Hilmar Willi Duerbeck, 1948-2012	68
Kellermann, K.	255	On the origin of the name of the minor planet (1441) Bolyai	179
Kinns, R.	59	On the reliability of Han Dynasty solar eclipse records	200
Kragh, H.	149	Perfecting 'a sharper image': telescope-making and the dissemination of technical knowledge, 1700-1820	125
Loren, R.B.	232	Possible astronomical meanings of some El Molle relics near the ESO Observatory at La Silla	137
Losev, A.	42	Romanian astronomy and the 1874 transit of Venus	15
Marsden, S.	72	Sigurd Enebo and variable star research: Nova Geminorum 1912 and the RV Tauri Stars	246
Mathewson, D.	100	Some new insights into the history of the Glasgow time ball and time guns	59
Nakamura, T.	213	The development of astronomy in Naples: the tale of two large telescopes made by William Herschel	30
Orchiston, W.	68, 70, 96, 146, 159, 183, 213, 259	The M51 mystery: Lord Rosse, Robinson, South and the discovery of spiral structure in 1845	19
Pankenier, D.W.	200	The Parkes 18-m Antenna: a brief historical evaluation	96
Pasachoff, J.M.	3	The University of Texas Millimeter Wave Observatory	232
Pettersen, B.	246	The Wells Creek meteorite impact site and changing views on impact cratering	159
Ruskin, S.	115	The 1882 transit of Venus and the popularization of astronomy in the USA as reflected in the <i>New York Times</i>	183
Sheehan, W.	3		
Stavinschi, M.	15		
Steinicke, W.	19		
Stephenson, F.R.	183		
Sterken, C.	68		
Stewart, R.	213		
Tenn, J.S.	47, 68		
Vanden Bout, P.A.	232		
Vincze, I.J.	105		
Vecchiato, A.	137		
Wielebinski, R.	76		
Yokoo, H.,	213		
Title	Page		
A history of radio astronomy polarisation measurements	76		
Advancing astronomy on the American frontier: the career of Frank Herbert Loud	115		
'Astronomy' or 'astrology': a brief history of an apparent confusion	42		
Book Reviews:			
<i>Advancing Variable Star Astronomy. The Centennial History of the American Association of Variable Star Observers</i>	70		
<i>Celebrating the AAO: Past, Present and Future: Proceedings of a Symposium held in Coonabarabran June 21-25, 2010, to Commemorate 35 Years of the AAO</i>
