

JOURNAL OF ASTRONOMICAL HISTORY AND HERITAGE

ISSN 1440-2807

EDITOR

Professor Wayne ORCHISTON (Thailand)

ASSOCIATE EDITORS

Professor Richard G. STROM (Netherlands)

Professor Joseph S. TENN (USA)

EDITORIAL BOARD

Dr David ANDREWS (England)

Dr Alan BATTEN (Canada)

Dr Allan CHAPMAN (England)

Dr Suzanne DÉBARBAT (France)

Dr Wolfgang DICK (Germany)

Dr Steven DICK (USA)

Professor Bambang HIDAYAT (Indonesia)

Professor Rajesh KOCHHAR (India)

Professor LIU Ciyuan (China)

Professor Tsuko NAKAMURA (Japan)

Professor NHA Il-Seong (Korea)

Professor F. Richard STEPHENSON (England)

Professor Brian WARNER (South Africa)

The *Journal of Astronomical History and Heritage* (JAHH) was founded in 1998, and since 2007 has been produced three times yearly, in March, July and November. It features review papers, research papers, short communications, correspondence, IAU reports and book reviews.

Papers on all aspects of astronomical history are considered, including studies that place the evolution of astronomy in political, economic and cultural contexts. Papers on astronomical heritage may deal with historic telescopes and observatories, conservation projects (including the conversion of historic observatories into museums of astronomy), and historical or industrial archaeological investigations of astronomical sites and buildings. All papers are refereed prior to publication. There are no page charges, and *in lieu* of reprints authors are sent a pdf or Word camera-ready version of their paper so that they can generate their own reprints on demand.

Prospective authors may download the 'Guide for Authors' from <http://www.narit.or.th/en/files/GuideforAuthors.pdf> or request it from Professor Wayne Orchiston (wayne.orchiston@narit.or.th). Intending contributors should carefully follow these guidelines when preparing manuscripts. Papers and book reviews should be e-mailed to Professor Orchiston, or posted to him at:

National Astronomical Research Institute of Thailand
191 Huay Kaew Road
Suthep District
Muang
Chiang Mai 50200
Thailand

Enquiries concerning review copies of books, advertising space, and back numbers of the *Journal* also should be directed to Professor Orchiston.

The JAHH is now an electronic journal. All content back to Vol. 1 may be downloaded free of charge from either the Journal's web site at <http://www.narit.or.th/en/index.php/jahh> or the SAO/NASA Astrophysics Data System site (<http://bit.ly/1bMwxBr>) and its 12 mirror sites around the world. The electronic version of the journal will continue to be produced three times a year (nominally in March, July and November) and posted on both sites. Those who wish a hard copy may print it out or have it done by their local printers. For this reason a single pdf of each entire issue is available on the site at NARIT.

COVER IMAGE

The Wolfe Creek Crater, an impact crater 860 m across in Western Australia with an estimated age of 300,000 years, as depicted by Aboriginal artists. According to one legend, a pair of rainbow serpents created the crater, as shown in the upper right-hand painting. An origin from an object falling out of the sky (center top pair) is also present in Aboriginal oral lore: "A star bin fall down... It fell straight down and made that hole round, a very deep hole. The earth shook when that star fell down." (See the paper by Duane Hamacher and John Goldsmith starting on page 295.)
