

## EDITOR

Professor Wayne ORCHISTON (Thailand)

## ASSOCIATE EDITORS

Dr Duane HAMACHER (Australia)  
Professor Richard G. STROM (Netherlands)  
Professor Joseph S. TENN (USA)

## EDITORIAL BOARD

Dr David ANDREWS (England)	Professor Rajesh KOCHHAR (India)
Dr Alan BATTEN (Canada)	Professor LIU Ciyuan (China)
Dr Allan CHAPMAN (England)	Professor Tsuko NAKAMURA (Japan)
Dr Suzanne DÉBARBAT (France)	Professor NHA Il-Seong (Korea)
Dr Wolfgang DICK (Germany)	Professor F. Richard STEPHENSON (England)
Dr Steven DICK (USA)	Professor Brian WARNER (South Africa)
Professor Bambang HIDAYAT (Indonesia)	

The *Journal of Astronomical History and Heritage* (JAHH) was founded in 1998, and since 2007 has been produced three times yearly, now in March/April, July/August and November/December. It features review papers, research papers, short communications, correspondence, IAU reports and book reviews.

Papers on all aspects of astronomical history are considered, including studies that place the evolution of astronomy in political, economic and cultural contexts. Papers on astronomical heritage may deal with historic telescopes and observatories, conservation projects (including the conversion of historic observatories into museums of astronomy), and historical or industrial archaeological investigations of astronomical sites and buildings. All papers are refereed prior to publication. There are no page charges, and *in lieu* of reprints authors are sent a pdf or Word camera-ready version of their paper so that they can generate their own reprints on demand.

Prospective contributors may download the 'Guide for Authors' directly from the internet by accessing <http://www.narit.or.th/en/files/GuideforAuthors.pdf> or request it from Professor Wayne Orchiston ([wayne.orchiston@narit.or.th](mailto:wayne.orchiston@narit.or.th)). Intending contributors should carefully follow these guidelines when preparing manuscripts. Papers and book reviews should be e-mailed to Professor Orchiston, or posted to him at:

National Astronomical Research Institute of Thailand  
191 Huay Kaew Road  
Suthep District  
Muang  
Chiang Mai 50200  
Thailand

The JAHH is now an electronic journal. All content back to Vol. 1 may be downloaded free of charge from either the Journal's web site at <http://www.narit.or.th/en/index.php/jahh> or the SAO/NASA Astrophysics Data System site (<http://bit.ly/1bMwxBr>) and its 12 mirror sites around the world. The electronic version of the journal will continue to be produced three times a year and posted on both sites. Those who wish a hard copy may print it out or have it done by their local printers. For this reason a single pdf of each entire issue is available on the site at NARIT.

## COVER IMAGE

Comet Donati (C/1858 L1) as observed (and drawn) by C.F. Fearnley on 26, 27, 29 September and 1 October 1858 (right to left). Observations made with various refractors from the University Observatory at Christiania (former name of Oslo) are described by Bjørn Ragnvald Pettersen from p. 98. The measurements, which include polarization determinations, were recently recovered and have not been published until now. The drawings attest to Fearnley's observing and drafting skill (north is up - for orientation, note the seven stars of the Big Dipper [or Plough] along the top).
